R.RUI <Safety> Patient Cable & Lead Wire Serie

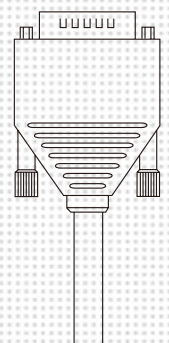

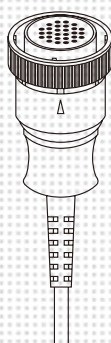

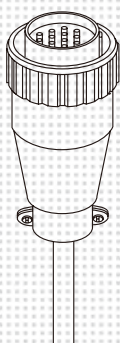

www.r-rui.com

Material of Lead Wires 1

Combiner 2

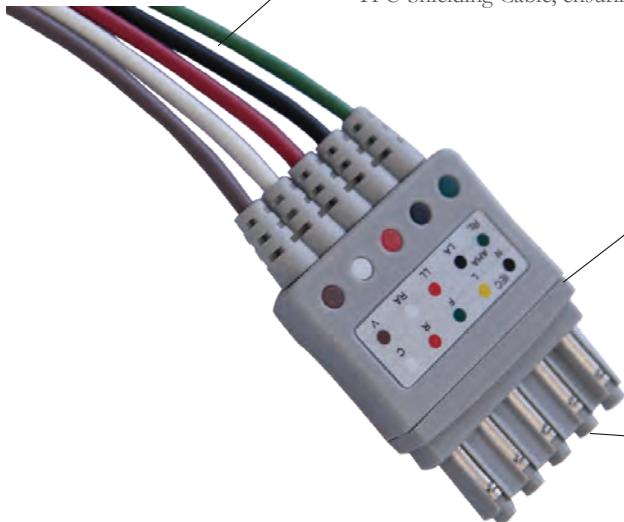

Safety Sockets 3

# R-RUI Style, [Shielded] Lead Wire Serie

## 1. Material of Lead Wires

Shielding, Anlistatig, Low-Noise, Kevlar® Cable Material-All R.RUI® lead wires selecting the 5-cores TPU Shielding Cable, ensuring the Using Safety.

## 2. Combiner

For quick and easy connections to cable junctions, to design as a special unique combiner system, which could couples all the individual replacement leads into a block system.

## 3. Safety Sockets

R.RUI® lead wire's sockets in the Cable lead, which is designed with contact-pin in the recess, as good as protection of the operator's safety.

## Monitoring & Operation Room Applications

### Cordial OEM Service

OEM Service can select from a variety of multi-contact connectors to suit with different equipment.

### AHA & IEC color coding

To provide the AHA & IEC color coding for quick and easy lead attachment.

### Trunk Cable

The R.RUI Trunk Cable uses shielded, low noise cable to minimize tribo-electric noise & electrical interference. It's Depicting the lot numbers & product traceability for product after sales service & guarantee.

### STANDARD of R.RUI® [VS] Cable & Lead Wires Sets

R.RUI® [VS] Cable & Lead Wires Sets exceed

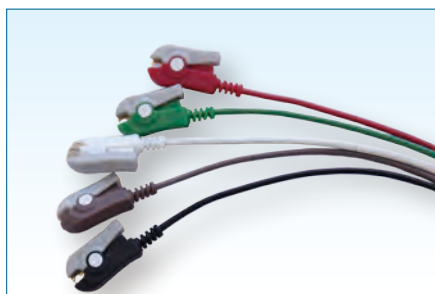

ANSI/ AAMI EC53- 1998 Cable & Lead wire Standards.

Manufacture accord with ISO 2008 & EN 13485 Quality Systems.

R.RUI® [VS] Cable & Lead Wires Sets according with

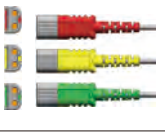

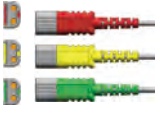

R.RUI's products standard & Chinese SFDA standard:

YZB/ JING 0366-2005

R.RUI [ DIN ] - <Safety>  
Patient Cable & Lead Wire Serie

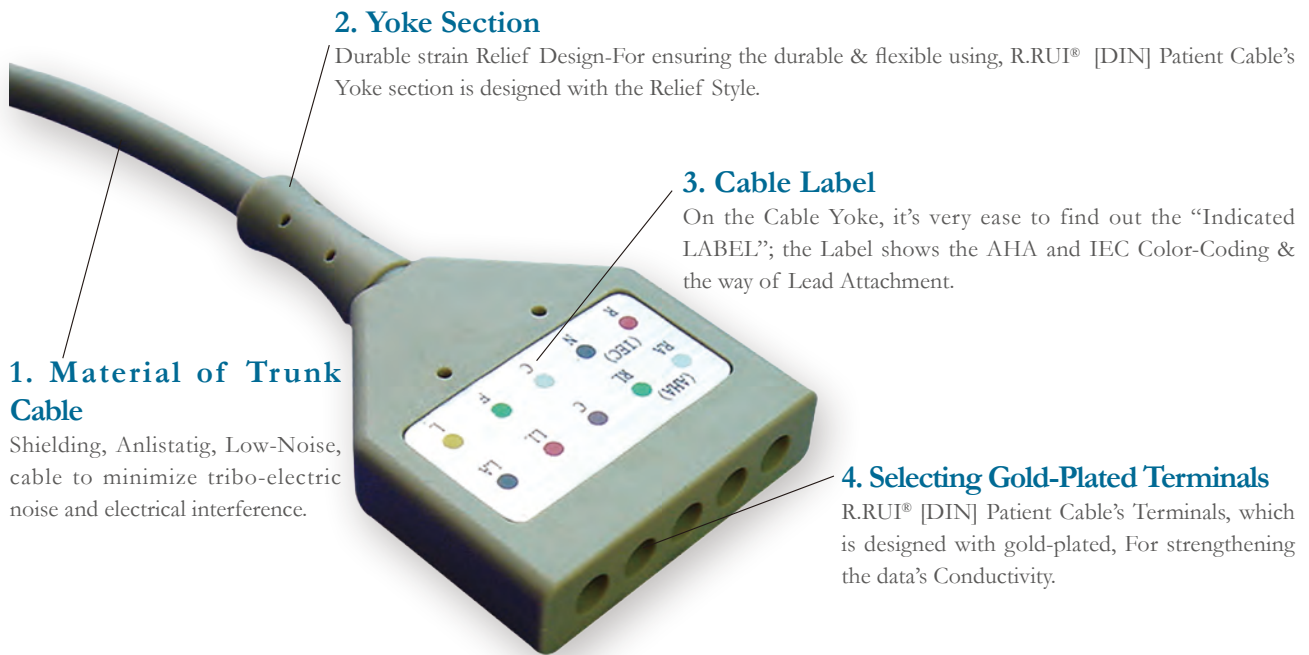

Material of Trunk Cable	1
Yoke Section	2
Cable Label	3
Selecting Gold-Plated Terminals	4
Material of Lead Wires	5

# R-RUI [DIN] - <Safety> Patient Cable & Lead Wire Serie

## 1. Material of Trunk Cable

Shielding, Anlistatig, Low-Noise, cable to minimize tribo-electric noise and electrical interference.

## 2. Yoke Section

Durable strain Relief Design-For ensuring the durable & flexible using, R.RUI® [DIN] Patient Cable's Yoke section is designed with the Relief Style.

## 3. Cable Label

On the Cable Yoke, it's very ease to find out the "Indicated LABEL"; the Label shows the AHA and IEC Color-Coding & the way of Lead Attachment.

## 4. Selecting Gold-Plated Terminals

R.RUI® [DIN] Patient Cable's Terminals, which is designed with gold-plated, For strengthening the data's Conductivity.

## For all patient Monitoring & Holter Applications

### Trunk Cable

The R.RUI Trunk Cable uses shielded, low noise cable to minimize tribo-electric noise & electrical interference. Identification Label on the trunk cable is depicting the lot numbers & product traceability for product after sales service & guarantee.

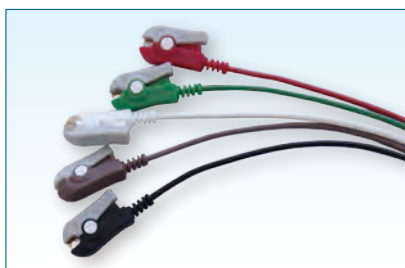

### Different Length selections of Lead Wire:

Lead Wires are available in 24"/60cm and 40"/100cm lengths.

To meet your every requirements!

### Trunk Cable & Lead Wires

All [DIN] ECG Trunk Cable & Lead wire Sets-Yoke Section between the Cable and Connector, where is selected the Durable strain Relief Effect Design to

increase durability and strain absorption.

Clearly writing the En. Words on the end of lead-wire's connector & cable yoke, to indicate the connection way.

### STANDARD of R.RUI® [DIN] ECG Cable & Lead Wires Sets

R.RUI® [DIN] ECG Cable & Lead Wires Sets exceed

ANSI/ AAMI EC53- 1998 Cable & Lead wire Standards.

Manufacture accord with ISO 9001/ 2000 & EN 13485 Quality Systems.

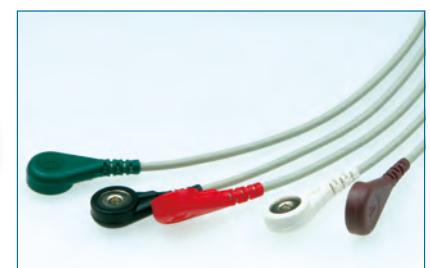

### R.RUI® [DIN] ECG Cable & Lead Wires Sets according with

R.RUI's products standard & Chinese SFDA standard: YZB/ JING 0366-2005

Supplying the selections of lead wire's connectors-

[Snap] lead wire: AHA / IEC color code standard available;

[Clip] lead wire: AHA / IEC color code standard available.

### Lead Wires

"Replaceable" Character of the lead wire-

Individual lead wires are more economical and convenient for patient monitoring, as holding the Character of replaceable individual lead wire.

### Material of Lead Wires

Shielding, Anlistatig, Low-Noise, Kevlar® Cable Material-All R.RUI® [DIN] Patient Cable, selecting the 5-cores TPU Shielding Cable, Ensuring the Using Safety.

## Diagnostic Resting ECG & Stress Testing Applications

R.RUI [ Multi-Lead ] Style - <Shielded>  
 'One- Piece' Patient Cable & Lead Wire Serie

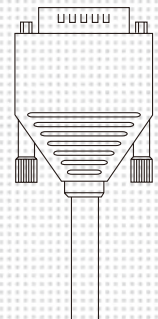

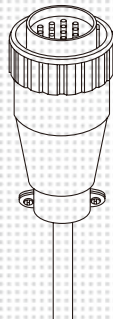

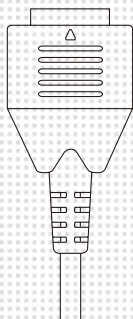

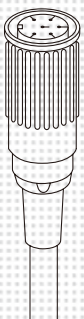

[www.r-rui.com](http://www.r-rui.com)

Material of Trunk Cable 1

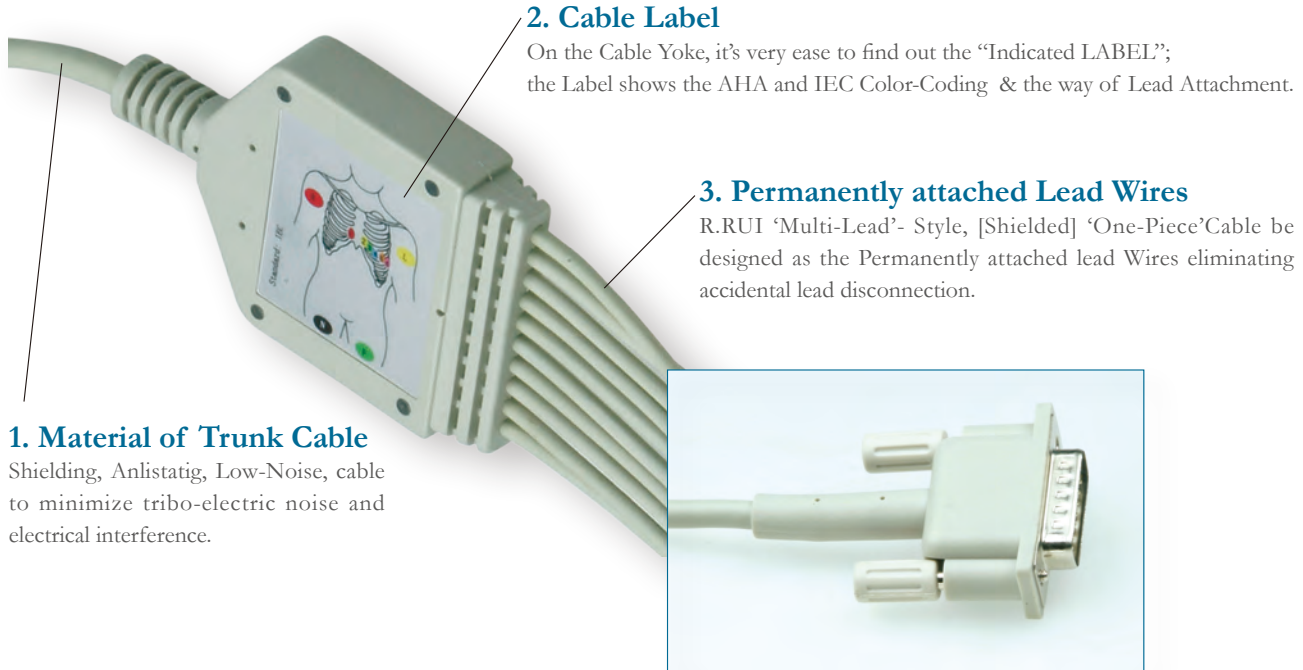

Cable Label 2

Permanently attached Lead Wires 3

# R-RUI [ Multi-Lead ] - Style, [Shielded] 'One- Piece' Patient Cable & Lead Wire Serie

## 1. Material of Trunk Cable

Shielding, Anlistatig, Low-Noise, cable to minimize tribo-electric noise and electrical interference.

## 2. Cable Label

On the Cable Yoke, it's very ease to find out the "Indicated LABEL"; the Label shows the AHA and IEC Color-Coding & the way of Lead Attachment.

## 3. Permanently attached Lead Wires

R.RUI 'Multi-Lead'- Style, [Shielded] 'One-Piece' Cable be designed as the Permanently attached lead Wires eliminating accidental lead disconnection.

## Diagnostic Resting ECG & Stress Testing Applications

### R.RUI 'Multi-Lead' Style, [Shielded] 'One- Piece' Patient Cable with Lead Wires

compact design/ easy to clean/ low profile yoke with permanently attached lead wires to eliminate accidental lead disconnection.

### Cost Effectiveness

Perform ECG & stress from one cable by using different lead wires, or by using different adapters with Banana Plug lead wires; Low cost replacement capabilities of separate trunk cable and lead wires.

### Durability

Polyurethane protective jacket ensure the using durability & flexibility; an design of injection-molded yoke prevents breakage.

### Voltage protection

Defibrillator has the function of voltage protection, which is incorporated in our patient cables.

### Banana Plugs & Straight Pin Plugs

As the adaptor to all types of electrodes, the "Banana Plug" lead wires are most common used for Diagnostic resting ECG procedures. Banana Plugs & Straight Pin Plugs have both color coding and lead easy identification of operation.

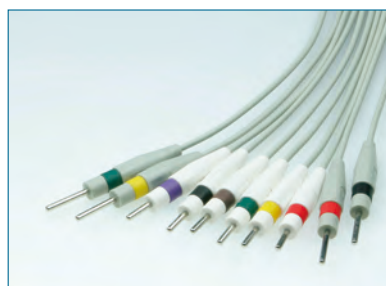

### Pinch Clips

"Pinch Clip" lead wires are most common used and recommended for stress testing applications. The Color coding is available on the Pinch Clip Lead Wires for easily identification & Operation.

### STANDARD of R.RUI® [Multi-Lead] Cable & Lead Wires Sets

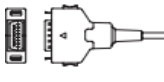

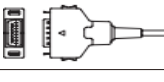

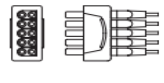

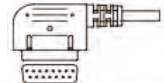

R.RUI® [Multi-Lead] Cable & Lead Wires Sets exceed ANSI/ AAMI EC53- 1998 Cable & Lead wire Standards. Manufacture accord with ISO 9001/2000 & EN 13485 Quality Systems.

R.RUI® [Multi-Lead] Cable & Lead Wires Sets according with R.RUI's products standard & Chinese SFDA standard: YZB/ JING 0366-2005

R.RUI Reusable / Disposable SpO<sub>2</sub> Sensor  
& Extension (Adapter) Cable

[www.r-rui.com](http://www.r-rui.com)

Reusable SpO <sub>2</sub> Sensor	1
Disposable/ Adhesive SpO <sub>2</sub> Sensor	2
Reusable SpO <sub>2</sub> Sensor- Extension/ Adapter Cable	3

# R-RUI Reusable SpO<sub>2</sub> Sensor

R.RUI has designed an array of reusable SpO<sub>2</sub> sensors --- available for patients of all sizes (>>Adult, >>Pediatric, >>Neonatal & >>Infant) and SpO<sub>2</sub> Extension Cables. Reusable sensors are appropriate for monitoring relatively immobile patients. All R.RUI brand reusable sensors are constructed with precise PD&LED-electric components that meet the specification and performance level of the OEM sensors.

Notes: The reusable sensor site should be changed no less than once every four hours; in younger patients, the site should be changed more often.

## ['Adult' Finger Clip ] Reusable SpO<sub>2</sub> Sensor

- For patient weighing more than 40Kg;
- Easy to use finger clip design;
- Length of Sensor: 3.2m/ 1.0m available;
- Cable material : TPU & PVC available.

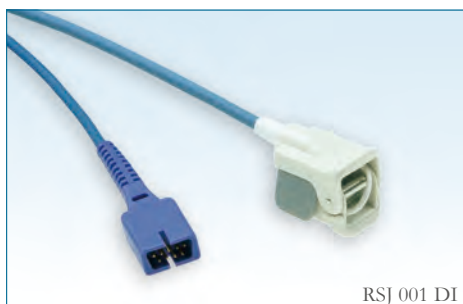

## [Silicon- Soft Cover] Reusable SpO<sub>2</sub> Sensor

- For patient weighing more than 30Kg;
- Easy to use Cover design;
- Length of Sensor: 3.2m/ 1.0m available;
- Cable material : TPU & Silicon available.

## ['Pediatric' Finger Clip ] Reusable SpO<sub>2</sub> Sensor

- For patient weighing more than 30Kg;
- Easy to use finger clip design;
- Length of Sensor: 3.2m/ 1.0m available;
- Cable material : TPU & PVC available.

## ['Y'-Sensor ] 'Y'-style Reusable SpO<sub>2</sub> Sensor

- For patient weighing between 10Kg and 30Kg;
- Accessory for 'Y'-style wrap separately;
- Easy to use Ear-clip design for attended spot-check;
- Length of Sensor: 3.2m/ 1.0m available;
- Cable material : TPU & PVC available.

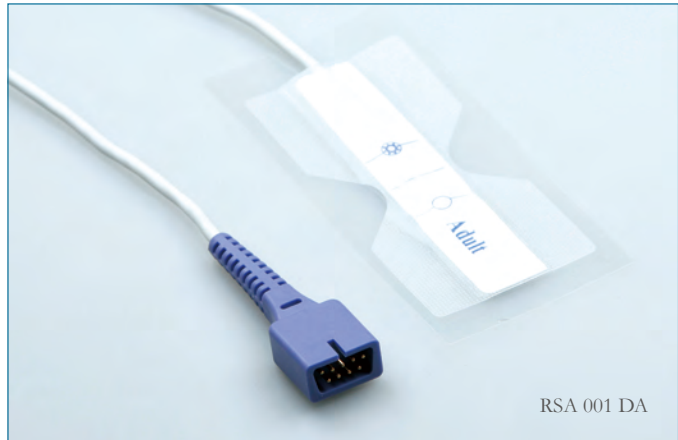

R.RUI Disposable SpO<sub>2</sub> Sensor Series are ideal for multiform monitoring or situations, where the risk of cross- contaminations is high. R.RUI Disposable SpO<sub>2</sub> Sensor feature an inclusive cable, sensor and adhesive wrap to provide patients supper comfort. For patients who are active or agitated, it is more difficult to shake off an disposable/ adhesive sensor, thereby making monitoring in high motion environments more effective. Meanwhile to providing a disposable solution at an competitive price.

## [Adult] Disposable/ Adhesive SpO<sub>2</sub> Sensor

- Recommended for single-patient use on patients weighing more than 30Kg;
- Shipped sterile in a case of 20 pcs.

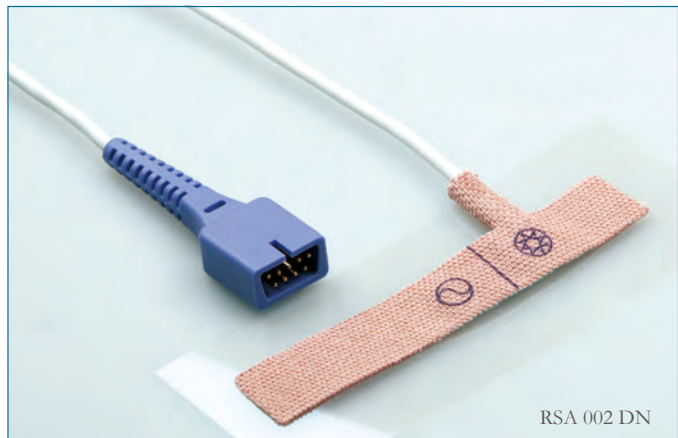

## [Pediatric] Disposable/ Adhesive SpO<sub>2</sub> Sensor

- Recommended for single-patient use on patients weighing between 10Kg and 30Kg;
- Shipped sterile in a case of 20 pcs.

## [Neonatal/ Adult] Disposable/ Adhesive SpO<sub>2</sub> Sensor

- Recommended for single-patient use on patients weighing less than 3Kg or more than 40Kg;
- Shipped sterile in a case of 20 pcs.

R.RUI offers a full range of Reusable SpO<sub>2</sub> Sensor Extension/Adapter Cables, which support a variety of monitoring systems. R.RUI Extension/Adapter Cables employ high quality alloy conductors with KEVLAR® reinforcement fibers for durability.

R.RUI Extension/Adapter Cables are designed to be compatible with most Oximeters, such as NELLCOR, Datex-Ohmeda, Masimo, Philips(HP), BCI, GE-Marquette, Schiller, Drager, Spacelabs, Nonin, Siemens, S&W, Menen, Mindary, MEK, 3F etc.

- R.RUI Extension/Adapter Cables are very easy to operate, minimize change and need for training.
- Cable material : TPU & PVC available, to employ high quality alloy conductors with KEVLAR®.
- Reliable OEM Service available!

Further More Information for the Compatibility, Pls. contact R.RUI!

We would like to provide the satisfied solution for you!

### Ref. Pic. for < Philips(HP) SpO<sub>2</sub> Extension cable >

- Round 12Pin--DB9Pin;
- TPU – Material cable 2. 4M;
- High quality alloy conductors with KEVLAR® reinforcement fibers for durability.
- High quality double Layers shield;
- Gold-Plated Terminals : For strengthen the Signal's Conductivity, without interference.

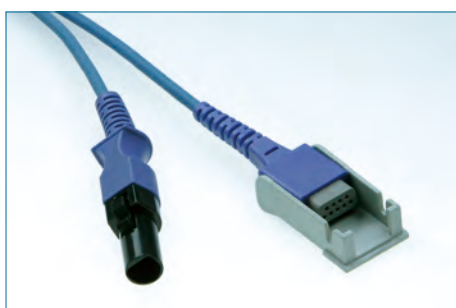

### Ref. Pic. for < GE-( Marquette) SpO<sub>2</sub> Extension cable >

- F11Pin-DB9Pin;
- TPU – Material cable 2. 4M;
- High quality alloy conductors with KEVLAR® reinforcement fibers for durability.
- High powered double Layers shield;
- Gold-Plated Terminals : For strengthen the Signal's Conductivity, without interference.

### Ref. Pic. for < Novamatrix SpO<sub>2</sub> extension cable >

- HYP7Pin-DB9Pin;
- TPU – Material cable 2. 4M;
- High quality alloy conductors with KEVLAR® reinforcement fibers for durability.
- High quality double Layers shield;
- Gold-Plated Terminals : For strengthen the Signal's Conductivity, without interference.
